

Tackle the toughest loads with the
Fontaine EQ2 Hydraulic Equalizing Spreader

FONTAINE® EQ2

- Compact and efficient design—no dedicated stinger axles required
- Patent pending C-links for easy conversion from 14' 7" to 16' 1" axle spread
- Extra large back-up-pin is air-operated (features manual lift if no air supply)
- Massive oil reservoir equipped with in-tank return line filter and oil level sight gage
- Automatic hydraulic pressure dump for tight turning radius
- Lifts rear axles off the ground for easy backing in tight spaces
- Horizontal pivot located at rear of spreader to minimize trailer turning torque
- Dual independent leveling legs for easy pin connection on uneven terrain
- Drop-in modular power unit for quick and easy maintenance
- Strong, sleek "Fontaine Signature Look" steel frame designed and tested to provide years of trouble free-service
